DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4, 6-7, 11-35, 42, 44-46 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. The cycloalkyl problem remains. As noted previously, the examples include both a cycloalkyl (cyclohexyl) and two alkyls that are substituted by a cycle (e.g. cyclopropylmethyl). This can be fixed by removing such choices, because these still remain in the paragraph after paragraph 0021.
2. The term "heterocyclo-C₀₋₂alkyl" in R4 does not make sense. A heterocycle cannot have zero carbons. Further, the first R4 choice in claim 4 has 5 carbons. It seems likely that "heterocycloalkyl" is not really what is intended.
3. With the modification of the R4 definition in claim 1, the third R4 choice in claim 8 no longer is permitted by claim 1.
4. Claim 44 depends on a canceled claim.

Claim Objections

Claims 5, 8-10, 36-41 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
